Declaring a Continued Local Health Emergency due to the spread of the Hepatitis C Virus and the Human Immunodeficiency Virus (HIV) for the purpose of implementing a one-year clean needle and syringe exchange program.

CITY MANAGER SUPPORTING INFORMATION:

California Health and Safety Code section 11364.7 (effective January 1, 2000) acknowledges the public health threat posed by the sharing of needles and syringes by injection drug users. The Code requires a local jurisdiction to declare a local emergency due to the existence of a critical local public health crisis in order to establish a clean needle and syringe exchange program. In order to permit development and implementation of a pilot clean needle and syringe exchange program, today’s action continues the state of emergency first declared by the City Council on November 27, 2001.
